

Document type **Technical Data Sheet**

Name **MARSEILLE SOAP PASTE**

Description It is a traditional natural treatment for Venetian Plaster. It provides a light protection against liquid and dirt to MARMORINO (FINE, MEDIUM and COARSE), MARMORINO METALLIC, BETON STUCCO, TADELAKT and GRASSELLO. Applied with a spatula, it also helps to close small imperfections or pores.

Composition Pure Marseille soap, water, additives and oil.

Appearance White, thick paste

Packaging 2 kg L polyethylene packaging

Application By hand, using a trowel, spatula, sponge or soft cloth

Where to use it Interior architectural vertical surfaces finished with: BETON STUCCO, GRASSELLO, LAVA PLASTER, MARMORINO FINE, MEDIUM, COARSE AND METALLIC, TADELAKT. It can be used on interior and exterior finishes.

Dilution The product can be diluted up to 5 times its weight with water, to be applied by brush or sponge.

Consumption 30-60 g/sqm of non-diluted product

Drying 3-5 hours at 20°C

Application temperatures min 8 max 35°C – R.U. < 85% ca

VOC Classification EU Directive 2004/42/CE: EU limit value for this product (cat A/I): 200 g/l (2010). This product contains less than 200 g/l of VOC.

Shelf life 24 months when stored according to the recommended guidelines

Storage In original sealed packaging between 5° and 35°C in a dry, dark environment

Safety Norms This product may cause skin allergic reactions. It is important to adhere to the prevailing safety and hygiene standards while using it. Always keep the product out of reach of children. In the event of ingestion, or allergic reaction seek medical assistance without delay and present the container or label.

Disposal Product must be disposed of according to norms and regulations in force. Containers must be sent for recycling. Follow directions on the packaging.

Application Instructions Apply MARSEILLE SOAP PASTE at least 24 hours after the decorative plaster has been applied. The application process involves using a trowel or, if preferred, diluting the soap and applying it by hand using a soft cloth or sponge. Carefully wipe off any excess soap with a soft cloth before it fully dries. It's important to note that the soap is white in colour, so when used undiluted on very dark finishes, it may leave white spots in the pores. Diluting the soap can help mitigate this effect.

Tools Trowel, spatula, sponge or soft cloth. Clean tools with water after use.
